ABOUT US

Portal Metal is your reliable solution partner in the supply of aluminum, stainless steel, galvanized sheet, plate, profile, trapezoidal, and anodized products, with its innovative approach, competent team that continuously updates itself both technically and commercially, and a wide range of products in today's high-technology era.

Thanks to its modern machinery park located in its Bursa production facility, the company flawlessly performs cutting, bending, welding, and laser cutting operations on sheet, coil, and profile products in accordance with project standards.

Serving a wide range of industries including defense, automotive, energy, white goods, construction, and decoration Portal Metal prioritizes customer satisfaction by delivering certified products with fast and reliable service. Our company exports to Europe and the Eurasia region, providing services to all customers under the same quality standards by adopting the technical and commercial expertise gained from projects in which we act as a solution partner.

Our Core Principles

- Providing high-standard services without compromising on quality,
- Managing business processes in a systematic and dedicated manner,
- Achieving flawless products on the first attempt through a sample approval system,
- Preserving materials and processed products safely using durable packaging techniques,
- Ensuring fast and on-time delivery of materials and products stored under insurance in bonded warehouse systems.

Guided by these values, we establish long-term and mutually beneficial partnerships with our customers.

Our headquarters and production facility are located in Bursa, and our sales office operates in Istanbul.
